

DOKKYO JOURNAL OF MEDICAL SCIENCES

Vol.45, No.2, July 2018

CONTENTS

第45卷 第2号 2018

原 著

- N-Myc-activated microRNAs Inhibit Protein Synthesis of RUNX1
and RUNX3 in Neuroblastoma Cell Lines Ken-ichi Inoue et al... (43)
- Prevalence of Methicillin-resistant *Staphylococcus epidermidis* in
New Hospital Residents : A Cohort Study of New Resident Physicians
in a University-affiliated Hospital Naoto Matsuda et al... (53)
- Analysis of Factors Relating to Day-to-day Home Blood Pressure Variation
in Hypertensive Patients Masahito Furuichi et al... (61)

症例報告

- Effectiveness of Anti-PD-1 Antibody Monotherapy for the Primary Malignant Melanoma
of the Esophagus : A Case Report Hiroto Muroi et al... (73)

会 報

- 第45回 獨協医学会学術集会 (抄録集) (81)
- 平成29年度 獨協医学会評議員会 (109)

Proceedings

- Abstracts of the 45th Annual Meeting of the Dokkyo Medical Society (81)
- Dokkyo medical society dispute committee in 2017..... (109)

1. Conflict of Interest Statement

Authors must state possible conflicts of interest in the manuscript, including financial, consultant, institutional and other relationships that might lead to bias or a conflict of interest. If there is no conflict of interest, this should be clearly stated as none declared. All sources of funding should be acknowledged in the manuscript. All relevant conflicts of interest and sources of funding should be included in the manuscript at the end of main text before the references with the heading "Conflicts of Interest and Source of Funding : ".

2. Statement of Informed Consent

Authors must ensure that a patient' s anonymity is carefully protected and verify that any experimental investigation with human subjects reported in the manuscript was performed with informed consent and following all the guidelines for experimental investigation with human subjects required by the institution (s) with which all the authors are affiliated.

3. Statement of Human and Animal Rights

Dokkyo Journal of Medical Sciences is dedicated to the humane and ethical conduct of all studies involving living subjects. All clinical trials involving human subjects must be registered, retroactively if necessary, to be considered for publication. In studies with human subjects, indicate in the Methods section whether the procedures, including obtaining informed consent, were conducted in accord with the ethical standards of the institution in which the experiments were done or in accord with the ethical standards of the Helsinki Declaration. For experiments with animal subjects, briefly explain the measures taken to insure compliance with established guidelines for humane use and care of laboratory animals, citing the origin of these guidelines.
